PLANT GENETIC RESOURCES ACCESSIONS OF SPECIAL VALUE

GUIDELINES FOR ASSESSMENT AND SELECTION CRITERIA

St. Petersburg
2026

*Recommended for publishing by a resolution of the Scientific Council of VIR (Minutes No. 23 of Decem
29, 2023); endorsed for publication by the Interagency Commission on the Issues of Formation,
Conservation and Utilization of Plant Genetic Resources Collections (Minutes No. 1 of April 9, 2026)*

resources accessions).

ISBN 978-5-907780-33-0

This publication presents guidelines for assessing plant genetic resources accessions and setting
their selection criteria to ascertain their special value for further development of a national collection
of highly valuable plant germplasm.

The guidelines are addressed to experts in the sphere of establishment, formation, conservation,
development, studying and utilization of biological (bioresource) collections.

The guidelines have been prepared in the framework of the Development Program of the
National Center for Plant Genetic Resources for 2023–2030 adopted by the Resolution of the
Government of the Russian Federation (No. 2496-r of September 16, 2023).
